Powering Progress.

Electrify Maldives Pvt Ltd (EMPL) delivers world-class power and engineering solutions built for island life.

Formed in partnership with **Trade Promoters Limited (TPL)** — a regional leader in power generation and engineering — EMPL is the **authorized dealer for Cummins Inc. & authorized distributor for Tonino Lamborghini** across the Maldives.

From multi-megawatt resort installations to marine propulsion, waste management, and sustainable mobility, EMPL powers over **130+ islands, resorts, and utilities** with reliable technology and round-the-clock support.

Driven by a **dedicated team of over 60 engineers, technicians, and support professionals**, EMPL combines world-class expertise with local insight to keep the Maldives powered—efficiently and sustainably.

Strong Partnerships. Regional Expertise. Global Standards.

As part of the TPL Group, EMPL combines international engineering excellence with local expertise to deliver power solutions (diesel generators and engines for marine, construction, and industrial applications), bulk water storage and waste management solutions, and premium mobility solutions – all of which are critical systems for sustaining island operations.

Group Companies:

trade promoters limited

- **Trade Promoters Limited (TPL)**
– **Sri Lanka:** Authorized Cummins sole authorized distributor, since 1992, specializing in power and engineering systems.

tpl singapore

- **TPL Singapore:** Regional logistics and engineering support hub.

electrify MALDIVES

- **Electrify Maldives (EMPL):** Power, marine, and sustainability solutions for the Maldives.

De Soysa Agencies

- **De Soysa & Co (Private) Limited:** Specialized supplier of industrial solutions serving diverse industrial sectors

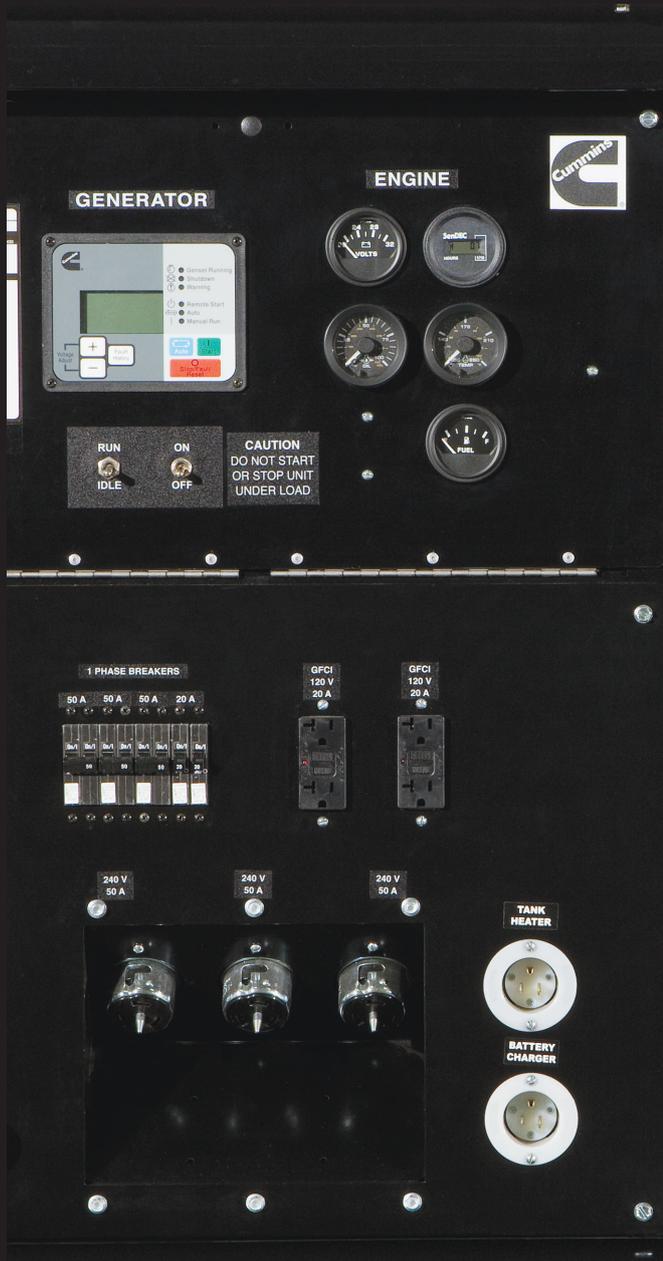

Together, we power progress, across Sri Lanka, Singapore, and the Maldives.

Trusted Power. Built for the Islands.

EMPL supplies and supports **Cummins diesel generator sets from 12 kW to 2800 kW**, for continuous island operation.

Key Features:

- *Prime, standby & continuous duty options*
- *Fully integrated Cummins engine – alternator – controller design*
- *Stamford alternators & SmartGen digital controls*
- *Extended service life and reduced overhaul intervals*

Engineering Expertise:

Authorized Cummins Distributor – Maldives

Load surveying

Noise control

Exhaust & ducting

Installation

Fuel tank fabrication

Testing & commissioning

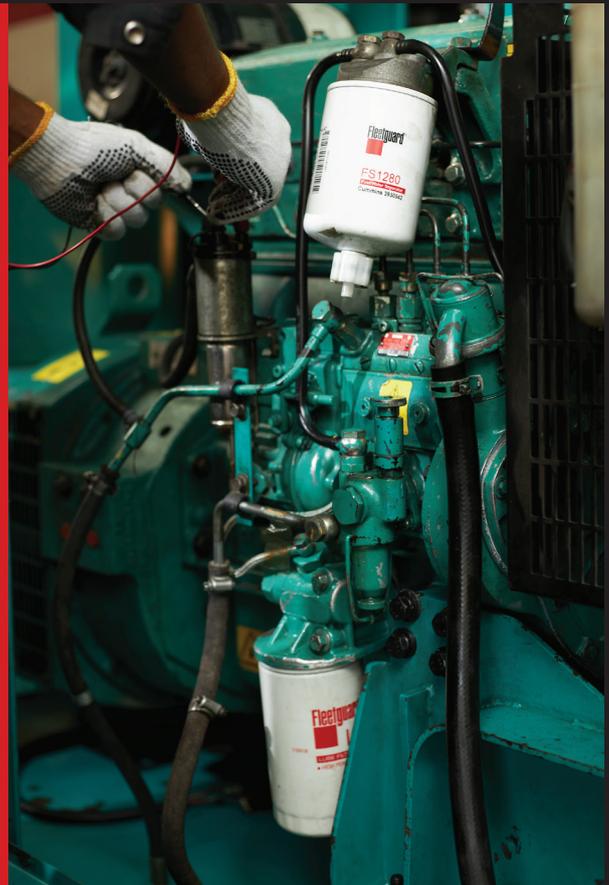

Protecting Engines. Extending Performance.

Fleetguard®

As part of the Cummins group, Fleetguard filters and coolants deliver OEM-quality reliability and performance.

- **Product Range:**

- Fuel, oil, air & hydraulic filters
- Coolants & additives
- NanoNET® advanced filtration technology

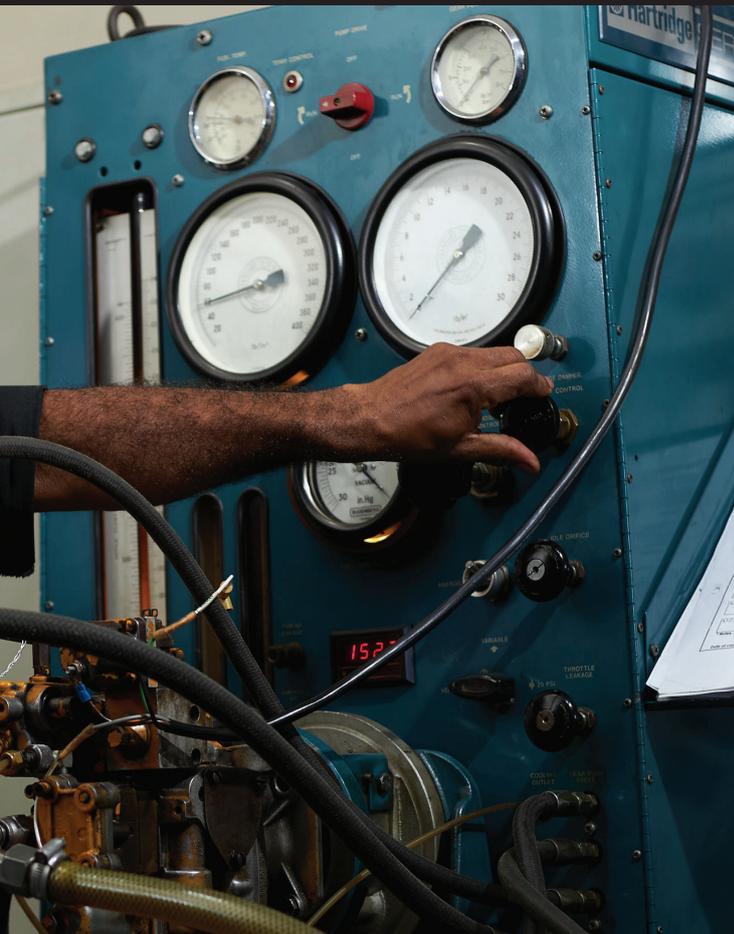

- **Benefits:**

- Longer engine life
- Better fuel efficiency
- Reduced maintenance costs

From Design to Commissioning Complete Solutions

EMPL's engineering division manages design, fabrication, and installation for complex island projects..

- **Core Services:**

- Noise & vibration control
- Heat recovery & remote cooling systems
- Steel fabrication & welding
- Bulk fuel tanks & exhaust systems
- Synchronizing switchgear & ATS
- MV & LV electrical installations

Powering the Maldivian Seas.

Cummins **Onan**

EMPL's marine division delivers propulsion engines, gensets, and auxiliary systems for commercial fleets, resorts, and government vessels.

- **Product Range:**

- Propulsion Engines: 120–4200 BHP
- Marine Gensets: 74–3000 kW
- Gearboxes: Reintjes & Twin Disc
- Propellers: SMW
- Alternators: Stamford

- **Applications:**

- Coast Guard vessels
- Resort ferries
- Cargo boats
- Luxury yachts

Cummins Marine Certified Engineers

Smart Storage and Waste Solutions for a Sustainable Island

WAZBRO®

INCINER8

EMPL offers smart waste and water management systems that help resorts and municipalities stay clean, efficient, and eco-friendly.

Solutions Include:

Glass crushers,
compactors &
composters

Incinerators &
beach cleaners

Industrial water
storage tanks

Impact:

Reducing waste, conserving resources, and supporting the Maldives' world-class environmental standards.

Luxury Meets Innovation.

EMPL introduces **Tonino Lamborghini** and **Kinetic Green** electric vehicles – blending luxury design with zero-emission performance.

Applications:

- Resorts
- Gated communities
- Government facilities

• Features:

- Solar charging compatibility
- Italian design & comfort
- Low maintenance & Silent drive

Luxury Italian Design, Sustainable Island Mobility

Proven Reliability Across the Maldives

EMPL has powered many of the Maldives' most prestigious resorts and critical infrastructure projects.

- **Signature Projects:**

- Ritz-Carlton Maldives: 5×1600 kVA Cummins gensets
- Patina Maldives: 2×1600 kVA + 2×1000 kVA systems
- Cheval Blanc Randheli: 5000 kVA Cummins + marine engines
- Vakkaru Maldives: Island-wide Cummins power setup
- Dhigurah & Dhangethi: Fuel & water systems
- Maldives Coast Guard: Propulsion & Stamford alternators

Always On.

EMPL ensures uninterrupted operations with **24/7 nationwide** service and **Cummins-certified technicians** and the Maldives' only authorized **PT Fuel Pump & Injector Calibration Facility**.

- **Services Include:**

- 24/7 emergency response.
- Genuine Cummins parts & warranty repairs.
- PT pump & injector calibration.
- Annual Maintenance Contracts (AMC).
- Fleet maintenance for resorts & utilities

Trust EMPL to keep your Cummins engines running at peak performance.
